// EXECUTIVE_SUMMARY.MD

Lead Product Designer with 7+ years of experience engineering high-impact user experiences across B2B SaaS, EdTech, and Enterprise Cloud Security platforms. Specialized in complex workflow simplification, multi-brand design token architectures, accessibility (100% WCAG 2.1 AA), and bridging the gap between product strategy and engineering execution.

// CORE_COMPETENCIES.JSON

Product & Systems UX: B2B SaaS, Design Token Architecture, Storybook

Prototyping & Code: Rapid Prototyping, React, Tailwind, Micro-interactions

Research & Metrics: Usability Testing, Funnel Analytics, WCAG 2.1 AA

Leadership: Design Mentorship, Cross-Functional Alignment, Sprint Planning

// WORK_EXPERIENCE.LOG

Lead Product Designer @ Wall Street English

2021 – Present

Global Education Technology Platform · Web & Mobile

- **Global Placement Test Overhaul:** Spearheaded complete redesign of the entry assessment funnel, cutting test abandonment by **42%** and lifting direct course checkouts by **28%**.
- **Course Product Modernization:** Rebuilt core learning interfaces achieving **100% WCAG 2.1 AA compliance** globally and increasing daily engagement by **50%**.
- **Design System Architecture:** Established scalable design token libraries in Figma and Storybook, accelerating cross-functional feature delivery velocity by **40%**.
- **Virtual Classroom & Study Planner:** Designed interactive video learning environments and adaptive pacing tools resulting in a **31% increase in course completions** and **200% growth in classroom bookings**.

Product Designer @ Auro24

2021

Enterprise Mobile Device Management (MDM) Suite

- **Enterprise Admin Console MVP:** Designed zero-to-one management dashboard for fleet IT administrators, scoring a **92% usability benchmark**.
- **Enrollment Acceleration:** Reduced enterprise device provisioning workflows by **75%** and supported 10+ pre-order customer conversions.

UI/UX Designer @ InstaSafe

2019 – 2021

Cloud Security & Zero-Trust Network Access (ZTNA) SaaS

- **Security Admin Console:** Re-architected cloud policy configuration UX, decreasing UI-related enterprise support tickets by **45%**.
- **Audit Optimization:** Cut task completion time for compliance audits by **60%** and empowered sales teams to close key Fortune 500 enterprise accounts.

// TOOLING_AND_TECH_STACK.ENV

Design & Prototyping: Figma, FigJam, Maze, Hotjar, Mixpanel, Storybook, Adobe Creative Cloud, Framer

Design Technologist Stack: React, JavaScript, HTML5/CSS3, Git, REST APIs, Design Tokens (Style Dictionary)

Domains & Practices: B2B SaaS, EdTech, Cybersecurity, Design Systems, Usability Benchmarking, Agile UX
